

# How are we doing in Wales?

Public Engagement Survey on Health and Wellbeing during Coronavirus Measures

Public Health Wales are conducting a public engagement telephone survey to ask members of the public in Wales how coronavirus and related control measures are affecting their health and wellbeing.

The information collected from **500 or more randomly selected individuals** provides the basis of the results presented in each **weekly report**.

The survey aims to provide data representative of the Welsh population and data are adjusted to represent the Welsh population by age, sex and deprivation.

We thank the people of Wales for giving us their valuable time to support this work.

# **679 Welsh residents** aged 18 years and over were interviewed in week 3 of the survey (20th April to 26th April).

Findings have been adjusted to population demographics (gender, age group and deprivation quintile).

# 11%

of people think they have had coronavirus and 9% are unsure. Of those that think they have been infected, 8% have had this confirmed with a test.

# 12%

of people report that someone close to them like a family member or friend has been seriously ill with coronavirus. 58%

of people agree or strongly agree that government is responding well to coronavirus; (26% disagree or disagree strongly);

96%

think the NHS is responding well.

# 81%

of people trust the police to use their new powers to restrict people's movement sensibly.

62%

of people are worried 'a lot' about losing someone to the virus.

# 65%

of those with children in their household are **worried 'a lot' about their children's wellbeing**.

# 20%

of people are worried 'a lot' about losing their job or not being able to find one.

# 31%

of people leave their house every day to exercise; 13% have not left their home at all in the last 7 days.

# 19%

of people have been worrying 'a lot' about their mental health and wellbeing and a further 35% of people have been worrying 'a little'.

# 32%

of people are 'sleeping well' less than they normally do; only 9% say they are sleeping better.

# 27%

of people are volunteering or supporting other members of their community through the coronavirus situation.

### Compared to normal times

42%

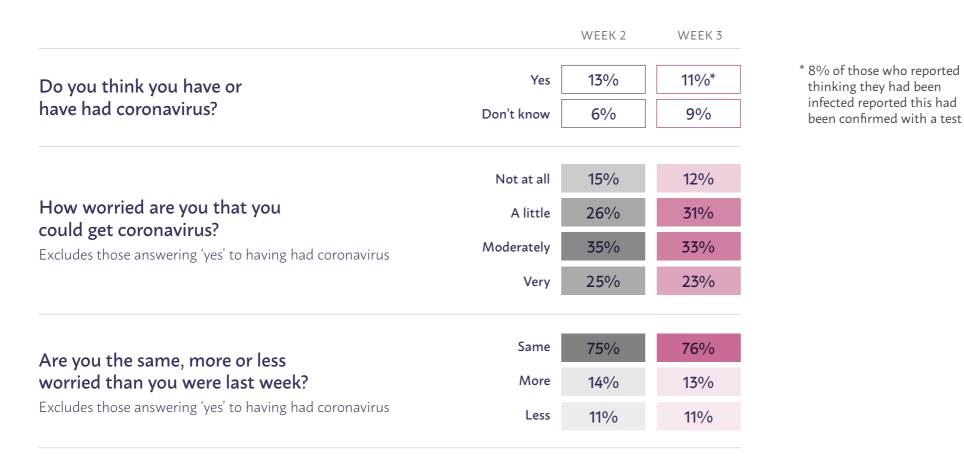

of people are using **social media** more.

are talking to family and friends more. 38%

are snacking more (e.g. on crisps, biscuits, cakes).

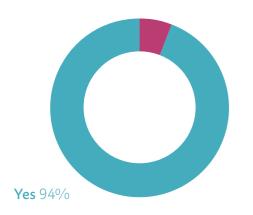

### Has someone close to you like a family member or friend become seriously ill<sup>#</sup> with coronavirus?

| Yes 8% 12% |
|------------|
|------------|

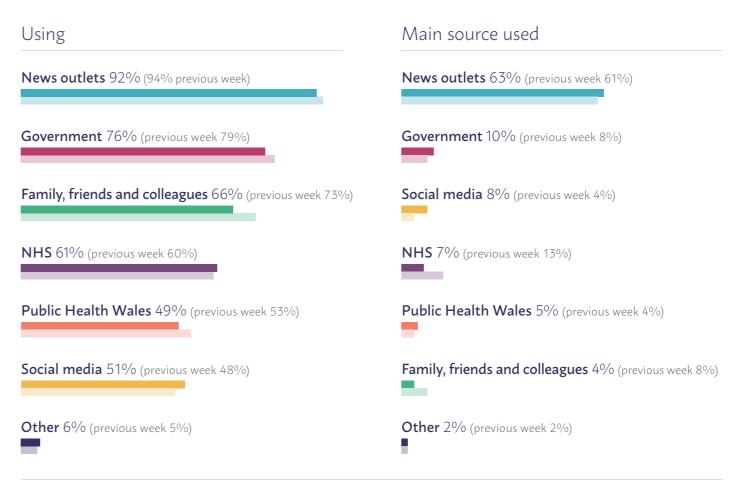

Do you feel you have enough information on how to protect yourself and your family from coronavirus?

(no change from previous week)

### Which sources are you using to get information on coronavirus?

Week 3 20-26 April 2020

# Do you think the restrictions in place to manage coronavirus are...

Too little 30% (previous week 38%)

About right 67% (previous week 59%)

Too much 2% (previous week 3%)
